

# Learning can happen ...

## Anytime. Anywhere.

### Parents and Caregivers,

Did you know that you have the power to help your child grow their reading skills anytime, anywhere? It's true! Whenever you read, sing and talk with your child, you can help them learn. Whether it's at home, in the car or while running errands, it teaches them skills that will last a lifetime like:

- Talking
- Reading
- Writing
- Problem-solving
- Critical thinking
- Creativity

And more!

Looking for ways to help your child with their reading and writing skills? MiLEAP has created a learning hub! It has practices you can use to help them learn from birth-10 years old. It also connects you to community support.

Chances to learn are all around. But they can't happen without you!
