

You've Got This!

Anytime. Anywhere.

When it comes to growing a child's reading skills, parents and caregivers play a huge role! **That's because every time you read, sing and talk with your child, you're helping them grow reading skills that will last a lifetime.** And the best part? This can happen anytime, anywhere! Making small learning activities part of your daily life can help your child's development in big ways.

Helping them grow their reading skills can happen **anytime, anywhere —** as long as you're there!

Looking for easy ways to add literacy activities to your routine?

Here are a few fun ways to get started:

Grab a cookbook: Your child can help with dinner by reading from the recipe as you cook.

Sing in the car: Fit in a mini karaoke session featuring your kiddo on the way to drop-off.

Babble during bath time: Chat about the day while your little one babbles along in the tub.

Name that fruit: At the store, point out fruits and veggies to your child. Talk about their colors and shapes and the sounds in their names.
